Ascent Advantage

Stylish Design

Introducing the first glass on glass portable vaporizer. 3 trendy shells include: Burl wood, Croc & Stealth. For convenience, this vape is pocket size, digital, sleek and smooth.

Temperature Control

Ranging from zero to 430 degrees Fahrenheit, and zero to 221 degrees Celsius the ceramic heating bowl allows for optimal vaping temperature on varying products.

Safety and Ease

Unique settings exist in every unit such as a motion, auto shut-off timer and 3 customizable vaping sessions, eliminating the worry of leaving a vaporizer on and forgetting.

Extended Battery Life

The super powered lithium ion battery eliminates the need for a constant charge. Expect 3+ hours of vaping time with this one.

Important Information

The Ascent can be used while charging at home or on the go with the car charger (sold separately).

Use caution when filling and/or stirring the ceramic heating bowl. The unit does get hot, so avoid coming in direct contact with the bowl itself.

Be aware that the bottom metal grill also retains heat and should be handled with care.

If the glass mouthpiece cracks or breaks discard immediately.

Disclaimer: The Ascent Vaporizer is designed as a mobile solution for the practitioners of aromatherapy. This unit is not intended for use with illegal substances.

Healthy Vaporization of all materials is temperature sensitive as advised in the vape temperature guide and on our website at DavinciVaporizer.com. Please also refer to physician provided recommendations.

Other Features

OLED Screen

Ascent goes one step further with the advanced OLED screen. This digital display shows specific temperature, battery life, and a moving, heated, ready to go bowl.

Buddy Rim

Use the glass mouthpiece for individual use and when it comes time to share, lower the glass piece. Other members at the party can vape right out of the top rubber portion of the vaporizer as known as the “Buddy Rim”.

Other Features Continued

Metal Pick

Each unit comes with 2 metal picks. One can be found inserted at the top of the unit parallel to the top glass straw. The second comes inside of the accessory pack included with each brand new unit. Use this straw to stir your ceramic bowl for a stronger, cleaner pull.

Carrying Pouch

Every unit comes with a velvet-like black carrying case. The pouch both keeps the unit out of harms way and make the vaporizer more discreet than ever.

Ascent How To Guide

Step 1: Connect your Ascent to the battery port charger for 4 hours.

Step 2: Power the device by pressing the Main Power Button located next to the mouthpiece. The OLED will display.

Ascent How To Guide Continued

Step 3: Load your vaporizer by opening the swiveled bottom chamber. Load the bowl with tobacco or filled oil jars and close the bottom chamber.

Step 4: Use the Temperature (+) Up/ (-) Down buttons to accurately set your vaporizer temperature.

How To Guide Continued

Step 5: While the heat bowl is ascending to the selected temperature it will display a thermometer. When the temperature is at the accurate setting, the heat bowl with vapor will appear.

Step 6: Enjoy the aromatherapy device from the retractable glass mouthpiece or vape directly from the "Buddy Rim".

Ascent Vaporizer Settings

The Ascent features 4 OLED programmable modes. These modes can be accessed by pushing the Settings button.

Push 1 time to turn heat chamber on (+) or off (-).

Push 2 times to adjust the auto-sleep timer up (+) or down (-) to the desired time.

Push 3 times to set the personal vape cycles. Push the settings button again to activate the first temperature cycle. Push settings button again to activate the timer.

Repeat for the 2nd and 3rd cycles.

* To end the personal vape cycle, push the settings button once and push the (-) button.

Push 4 times and hold the settings button for 5 seconds to toggle between Celcius and Farenheit.

The Oil Jar for Essential Oils

***Important:** Do not place oils directly into the ceramic heating bowl.

The provided glass oil jars can be used to vape oils both with or without the black plastic lid.

1.) Using the Oil Jar

- Fill oil jar a quarter of the way with product.
- Load oil jar (with or without lid) into the ceramic bowl prior to turning on the unit.
- Refer to the enclosed Basic Vape Temperature Guide and set the temperature accordingly.

2.) Removing the Glass Oil Jar

- Allow the unit to cool down before removal
- Gently use the provided metal pick to lift the jar

Cleaning Continued

2.) Clean the glass lined ceramic chamber

- Make sure the chamber is empty prior to cleaning.
- Wet a small cloth or q-tip with water or isopropyl alcohol and rub this around the chamber until clean.

3.) Clean the oil jars

- Remove oil jars from unit and soak in isopropyl alcohol. A small cloth or q-tip may be used.

Cleaning the Vaporizer

Do not submerge the body of the Ascent in water or any solution at any time.

As a precaution, always be sure to allow the device to cool down before attempting to clean any parts.

1.) Clean the vapor path

- Remove the glass mouthpiece from the top
- Open the Ascent at the hinge and remove the internal, lower glass piece.
- Soak both glass pieces in a solution of isopropyl alcohol until clean.

* A pipe cleaner may be of assistance.

Ascent FAQ's

What materials is the Ascent comprised of?

Featuring only top grade premium materials, the exterior consists of aluminum plating, a multitude of skins and medical grade silicone. The filling chamber is comprised of glass lined ceramic which holds and distributes heat at a consistent temperature, ensuring your materials are evenly roasted. Furthermore, the material and vapor-path are 100% glass, eliminating contaminants and offering the purest vapor available. All electronic components including the OLED screen are housed separately from the vapor-path.

What heating element is used?

DaVinci specifically engineered the glass lined ceramic chamber used in the Ascent to provide the most efficient, clean and deep heat available. The ceramic heating element creates long wave infrared heating, allowing heat to deeply penetrate the center of the chamber and infiltrate any substance evenly. Allowing the ceramic element to slowly reach the desired temperature results in optimal performance by providing consistent, yet accurate temperature control throughout. What this means for you, is the catalyzation of more active ingredients and cleaner vapor.

FAQ's Continued

What can be used in the Ascent?

The design was specifically built to accommodate both dry herbs and essential oils. No additional adapters need be purchased for oils; it comes equipped with 2 oil jars.

Does the vapor smell?

While vaporizers were created to allow users to enjoy desired blends in places where smoking is not permitted, we do advise that all users be conscientious of their surroundings. Although the vapor dissipates very quickly, it does emit a slight odor, especially at higher temperatures.

How often does the Ascent need to be cleaned?

The glass air-path is 100% removable for easy cleaning. Depending on your material, whether it is an herb blend or an essential oil, will determine how often you will need to clean it. When using oils, we advise that you clean it every other use. For herbal blends it will be to the discretion of the user.

MANUFACTURER'S WARRANTY FOR ASCENT VAPORIZER

This warranty does not affect your legal (statutory) rights under your applicable national laws relating to the sale of consumer products. Organicix, LLC provides this Warranty to the purchaser of the Ascent Vaporizer included in the sales package ("Product").

During the warranty period, Organicix, LLC or an Organicix, LLC authorized service company will in a reasonable time remedy defects in the device free of charge by repairing or, should Organicix, LLC deem it necessary, replacing the Product in accordance with this Warranty.

This warranty is only valid and enforceable in the country where you purchased the Product provided that Organicix, LLC has intended the Product for sale in that country.

2 YEAR LIMITED WARRANTY PERIOD

The two (2) year limited warranty period starts at the time of Product's original purchase by the first end-user. An original bill of sale is required to redeem the warranty. This Product consists of several different parts and different parts may be covered by a different warranty period depending on the lifecycle of each part. (Hereinafter "Warranty Period"). The general Warranty Periods is Two (2) Years for the Ascent Vaporizer and includes all attached parts, craftsmanship, electronics, heating chamber, and structural integrity. The Lithium Ion batteries however are subject to degradation and reduced run time over the course of regular use thus carries a warranty of 90 days after purchase to perform as designed for forty (40) continuous minutes at 200 degrees F.

(Battery Note: While Organicix, LLC took great care in selecting long life premium quality lithium ion batteries due to their non-memory features and ability to cycle 300 times preceding degradation, work time will gradually diminish with extended use. Please contact our service centers for battery replacement options of the highest caliber)

As far as your national laws permit, the warranty Period will not be extended or renewed or otherwise affected due to subsequent resale, Organicix, LLC authorized repair or replacement of the Product. However, part(s) repaired or replacement product during the Warranty Period will be warranted for the remainder of the original Warranty Period or for Ninety (90) days from the date of repair or replacement, whichever is longer.

HOW TO OBTAIN WARRANTY SERVICE

If you wish to make a claim under this warranty, please obtain an Return Merchandise Authorization (RMA) and then return your Product or the affected part to Organicix, LLC or an Organicix, LLC authorized Service Company. You can call Organicix, LLC customer service at 1-866-336-7224 for further details on how to make a claim.

Any claim under this warranty is subject to you notifying Organicix, LLC or a Organicix, LLC authorized service company of the alleged defect within a reasonable time of it having come to your attention and in any event no later than before the expiration of the warranty period.

When making a claim under this Limited Warranty you will be required to provide: a) the Product (or the affected part) and b) the original proof of purchase, which clearly indicates the name and address of the seller, the date and place of purchase and the product type.

*For more information go to : DaVinciVaporizer.com.

OTHER IMPORTANT NOTICES

If the Product is found not to be covered by the terms and conditions of this warranty, Organicix, LLC and its authorized service companies reserve the right to charge a handling fee. When repairing or replacing the Product, Organicix, LLC may use products or parts that are new, equivalent to new or re-conditioned. Your Product may contain country specific elements. If the Product has been re-exported from its original destination country to another country, the Product may contain country specific elements that are not considered to be a defect under this warranty.

LIMITATION OF ORGANICIX, LLC'S LIABILITY

This Warranty is your sole and exclusive remedy against Organicix, LLC and Organicix, LLC's sole and exclusive liability in respect of defects in your Product. This Warranty replaces all other Organicix, LLC warranties and liabilities in regard to the Ascent Vaporizer, whether oral, written, (non-mandatory) statutory, contractual, in tort or otherwise, including, without limitation, and where permitted by applicable law, any implied conditions, warranties or other terms as to satisfactory quality or fitness for purpose. However, this Warranty shall neither exclude nor limit 1) any of your legal (statutory) rights under the applicable national laws or 2) any of your rights against the seller of the Product.

To the extent permitted by applicable law(s) Organicix, LLC does not assume any liability for any loss of profit, loss of use of Products or functionality, loss of business, loss of contracts, loss of revenues or loss of anticipated savings, increased costs or expenses or for any indirect loss or damage, consequential loss or damage or special loss or damage. To the extent permitted by applicable law, Organicix, LLC liability shall be limited to the purchase value of the Product.

Troubleshooting Guide

My vaporizer temperature stops at 221 degrees.

Make sure the unit is not stuck on Celsius. Hold the setting button down for 5 seconds and the vaporizer will switch over to Fahrenheit and now go up to 430 degrees.

The unit won't stop charging.

Double check that the unit is fully plugged in. After 4 hours unplug the unit, turn it on and a full battery charge should be displayed on the vaporizer screen.

My unit shut off when I put it down for a minute.

As a safety feature the Ascent has a 30 second auto shut-off timer. To change the timer on the auto shut-off feature simply double click the settings button. Here you can change the timer length with the up and down buttons.

I was only able to get a couple of hits from my session.

If you are using dry product in the Ascent, make sure you are using the metal pick to stir the ceramic bowl after 3-4 hits. This will allow even cooking.

My oil jar is stuck in the ceramic bowl.

Use the metal pick to gently lift the oil jar from the ceramic bowl. The top hinge of the pick fits perfectly in the top of the lid and can be used on the side of the jar as well.

Inspected for Quality.

The manufacturers of the Ascent take great care in producing a quality product. Quality assurance inspections are performed on each and every model to ensure all features & components are in top working order.

Each Ascent Vaporizer has an individual serial number to ensure authenticity. If your Ascent doesn't have a serial number, please contact us.
